

Letter of Recommendation

To Whom It May Concern,

I am pleased to recommend **Mark Dydyk**, who recently supported AAON through a focused consulting engagement at Super Radiator Coil (SRC). Over a 2.5-month period, Mark played a key role in improving SRC's on-time shipment performance, strengthening quality issue resolution, and providing clear visibility into the factory flow of AAON products.

Mark quickly became a trusted partner, developing effective status reporting, facilitating communication between SRC and AAON, and helping AAON resolve past-due invoices with SRC. His involvement contributed directly to SRC's improved delivery consistency and quality performance, allowing the project to conclude successfully.

Mark brings professionalism, operational expertise, and a results-driven approach to every engagement. I would gladly work with him again and recommend him for any organization seeking strong manufacturing, operations, or supplier-performance support.

Sincerely,

Bron Clinesmith

Senior Category Manager
